About Us

A Short Overview of the Metgain Ecosystem

MetForsage blockchain ecosystem with the help of the Inter-Blockchain Communication protocol (IBC) launched in June 2025, these chains can connect, transact and exchange tokens and data seamlessly. MetForsage is growing a business that provides existing and prospective customers with access to an Innovation.

Introduction

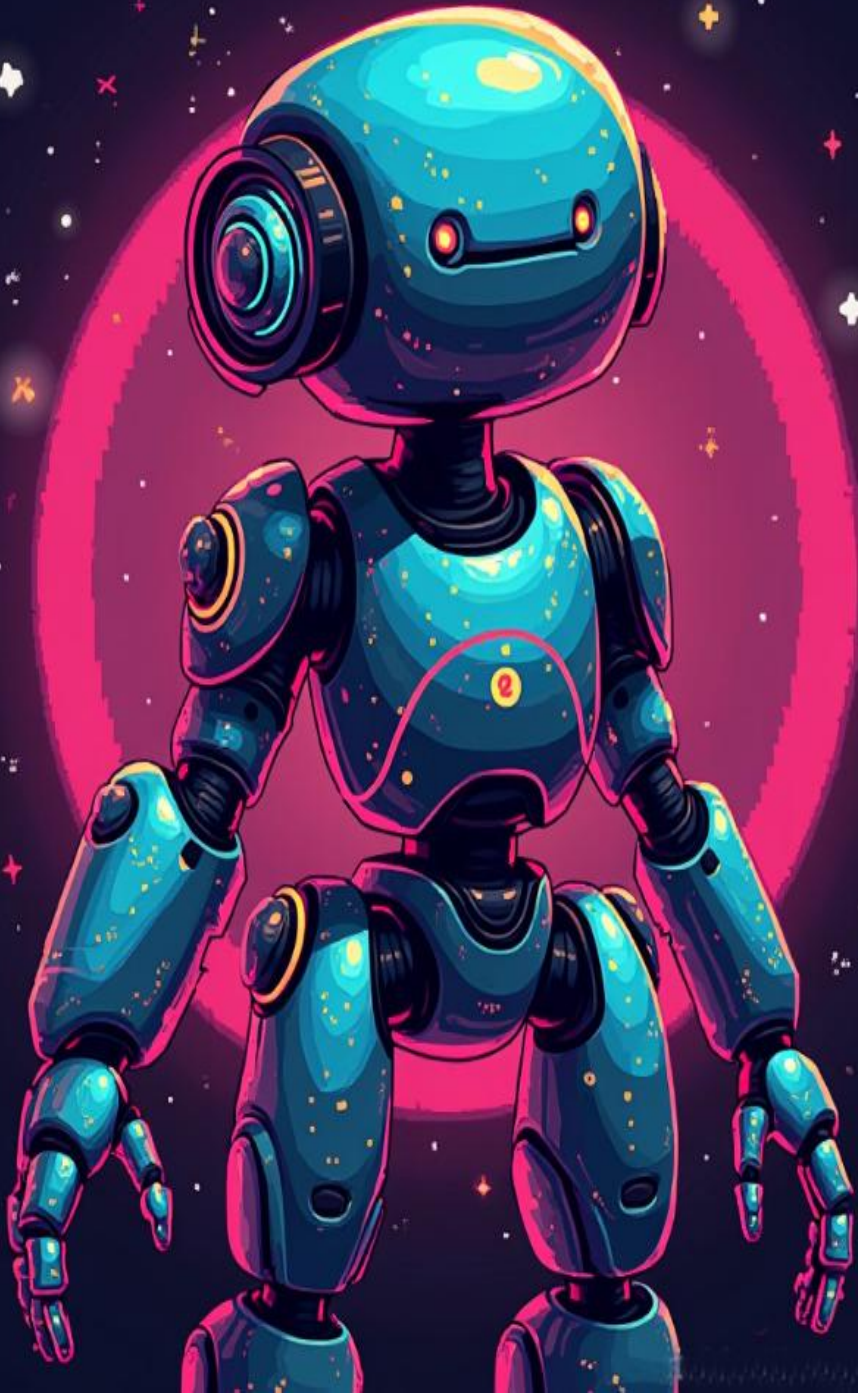

As a blockchain system, we are committed to providing our clients with exceptional service and experiences. In order to achieve this, we are always exploring new technologies and innovations that can help us improve our operations and better serve our customers. One area where we see significant potential is blockchain technology.

By leveraging the power of blockchain, we believe we can create a more secure, efficient, and transparent travel experience for our clients. For example, we are exploring the use of blockchain for payment processing. With its decentralized and secure nature, blockchain can help prevent fraud and provide a more seamless payment experience for travelers. We are also looking into how blockchain can be used to

create immutable records of transactions, making it easier to track and manage inventory and bookings.

In addition, we see great potential in the use of smart contracts. By automating various aspects of the travel industry, such as booking, check-in, and loyalty rewards, we can help save time and reduce costs for both travelers and travel companies.

At our core, we are a system that is committed to innovation and excellence. By embracing emerging technologies like blockchain, we believe we can continue to provide our clients with the exceptional service and experiences they deserve.

MetForsage A Decentralized Application on the Binance Blockchain

This presentation introduces MetForsage, a decentralized application designed for seamless user experiences via Telegram DApps, showcasing unique features, easy registration, and income opportunities for participants.

Token: METG

Easy Start: Registration

Registration without unnecessary steps!

Registration without unnecessary steps

Users can register quickly without going through complicated or unnecessary procedures.

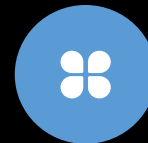

Access without separate wallet

Enter the application directly without needing to download or set up a separate wallet first.

Invite friends for income

Invite friends to join and earn together through active participation and passive income.

Flexible registration options

Ability to register independently or under an existing uplinea for maximum convenience.

Your Personal Account

Convenience and Transparency Features

Smart Program Efficiency

The Smart Program has a proven track record of effectiveness, enhancing user experience over the years.

Squad Creation Advantage

The squad creator receives 10x the rewards compared to regular members, incentivizing team leadership.

Types of Earnings Explained

Understanding how active and passive earnings function in decentralized applications.

Active Earnings

Earnings generated through partner invitations and level upgrades.

Daily Split

Monthly earnings are distributed among active participants daily.

Passive Earnings

Daily automatic payments with no new invitations required.

Participation Requirement

To maintain active status, at least one partner must be invited.

MetForsage Slot-Based Earning Structure

Slot Overview

Progressive Slots

The MetForsage earning structure consists of seven progressive slots, each designed to offer increased potential income as users advance. Each slot corresponds to a specific cost in METG, which determines the level of participation and income opportunities.

METG Costs

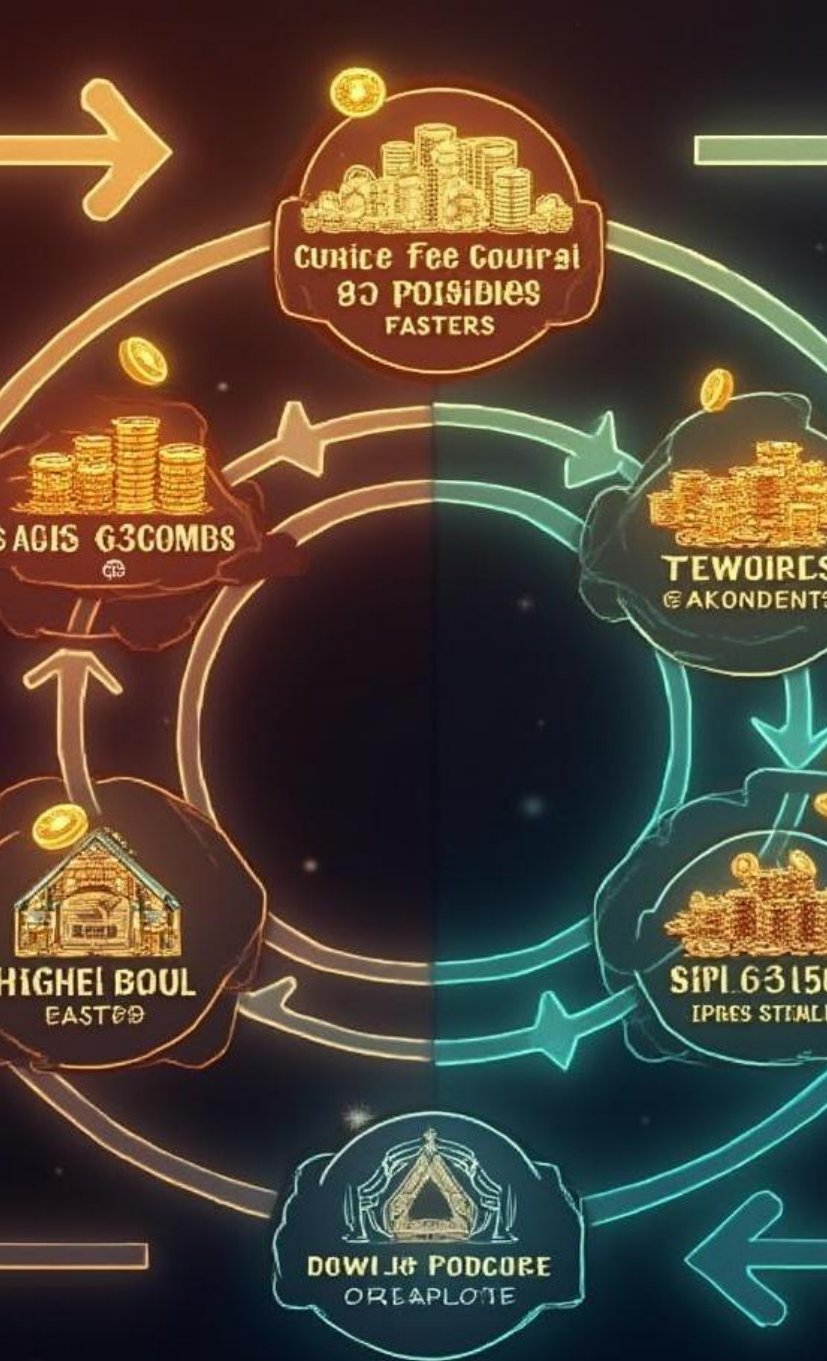

Every slot has a defined METG cost, representing the investment required to enter that level. Participants earn direct sponsor income and engage in recycling mechanisms, allowing them to gain returns on their investments and expand their earning potential.

Direct Income

Recycling Mechanism

The recycling mechanism allows users to automatically re-enter the matrix upon completing certain criteria. This ensures a continuous flow of income, enabling participants to capitalize on their investments while simultaneously creating opportunities for newly joining members.

Ideal User Profiles

The MetForsage structure caters to a variety of user profiles, ranging from new users to experienced networkers. Each slot level is designed with specific needs in mind, allowing participants to choose their investment level and associated benefits based on their goals and experience within the platform.
